WORK EXPERIENCE

- HoneyBee IoT Ltd**
Web Application Engineer (ERP Solutions)

Feb 2026 – Present

Dhaka, Bangladesh

- Developed scalable ERP modules within the HoneyBee ecosystem, enhancing business automation and operational efficiency.
 - Built and maintained high-performance RESTful APIs with clean, maintainable architecture.
 - Implemented RBAC, reporting, and modular features for HR, inventory, and core workflows.
 - Optimized queries and caching, reducing API response time and improving system stability.
 - Improved codebase through refactoring, usability enhancements, and CI/CD with Docker.
- Ahsanullah University of Science and Technology**
Lecturer (Part Time)

Dec 2024 – Dec 2025

Dhaka, Bangladesh

- Delivered Cloud Computing (CSE4267) coursework to 180+ students across two semesters.
 - Guided students through hands-on AWS-based projects to enhance practical cloud skills.
- Orange Business Development Limited**
Software Engineer

Oct 2023 – Oct 2024

Dhaka, Bangladesh

- Developed and maintained backend services for the RDCD (Ministry of Local Government) Beneficiary Training Management project, serving 50,000+ beneficiaries across multiple districts.
 - Built and optimized 30+ REST API endpoints using Laravel and NestJS, improving processing speed by 35%.
 - Implemented CI/CD pipelines with GitHub Actions, reducing deployment time by 60% and ensuring zero-downtime updates.
- Divergent Technologies Ltd.**
Database Administrator

Apr 2023 – Oct 2023

Dhaka, Bangladesh

- Worked in the VAS team at Robi, managing IVR services and delivering high-volume promotional campaigns used by millions of subscribers, with zero critical production incidents.
 - Built and optimized backend services using NestJS, REST APIs, and PostgreSQL, streamlining campaign workflows and reducing manual operational effort by ~30%.
- Shadhin Lab LLC**
Cloud Solution Developer

Aug 2022 – Apr 2023

Dhaka, Bangladesh

- Developed serverless backend applications on AWS using Node.js, Lambda, and modern cloud tooling.

EDUCATION

Degree	Institute	GPA/CGPA	Year
M.Sc. Engg. in CSE	Military Institute of Science and Technology (MIST), Dhaka	–	2025–Present
B.Sc. Engg. in CSE	Bangladesh Army University of Science and Technology, Saidpur	3.6/4.0	2017–2022

PROJECTS

- Mess Monitor**
Mess expense tracking app (Flutter + Cloud Backend)

Jan 2022 – Present

Play Store Link

- Achieved 5K+ downloads and 700+ active users with a 4.7 rating and 35+ positive reviews on Google Play.
 - Allows users to manage daily meals, grocery costs, utilities, and shared expenses easily.
- HR Connect – Human Resource Management System**
HR system integrated with biometric attendance tracking

Apr 2024 – Oct 2024

hrms-demo.divergenttechbd.com

- Developed using NestJS and PostgreSQL. Includes payroll, leave management, and role-based access control.
- Beneficiary Training Management System**
Microservice-based web app for RDCD (Ministry of Local Govt)

Oct 2023 – Oct 2024

btm.rdc.gov.bd

- Built using Laravel, React.js, Blade, Bootstrap, and queue systems. Integrated payment gateway and real-time notifications.

TECHNICAL SKILLS

- **Programming:** PHP, JavaScript, TypeScript, Python, SQL
- **Frameworks:** NestJS, Laravel, NextJS, ReactJS
- **Databases:** PostgreSQL, MySQL, MSSQL
- **Tools/Cloud:** AWS (IAM, EC2, S3, RDS, Lambda), Serverless, Docker, Linux, CI/CD, GitHub Actions

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – Amazon Web Services (AWS) *Jan 2024*
- **Cloud Management with AWS** – BASIS Institute of Technology and Management (BITM) *Aug 2023 – Oct 2023*
